

## Words Most Frequently Misspelled by High School Students

A study published in *The English Journal* in October 1971 showed that 1.5% of the words used by students in grades 9–12 accounted for 28% of the misspellings. Just 6% of the words accounted for 51% of the misspellings! The 388 words which accounted for over half of the misspellings are listed below, in order of frequency of misspelling.

- |                      |                              |                     |   |
