

Cleaning Requirements

Kitchen

- ___ Move the refrigerator away from the wall and clean under it. Clean the sides of the refrigerator.
- ___ Empty the refrigerator and freezer completely. Defrost and clean.
- ___ Clean the oven and the stove hood.
- ___ Carefully move the stove out and clean under it. Clean the sides of the stove.
- ___ Remove everything from cupboards and clean all shelves.
- ___ Clean the fronts of all base and wall cabinet doors and all drawers.
- ___ Counter, sink and stovetop should be spotless. Replace drip pans under burners if they cannot be cleaned.
- ___ Clean the walls.
- ___ Scrub the floor.

Entire unit

- ___ Clean the walls. NO SPACKLE. We will repair holes and damage to walls.
- ___ Remove everything from unit.
- ___ Clean outlet covers.
- ___ Clean tops and fronts of heaters.
- ___ Turn all heat registers down to 50° before vacating the unit.
- ___ Wash all windows. No streaks.
- ___ Professionally clean carpets and submit the receipt. Or, leave this and we can pay for it from the damage deposit.
- ___ Note any things we should fix or investigate (slow drains, etc.)

Bathroom and laundry room

- ___ Remove everything from closets, drawers, shelves, and cabinets. Clean them.
- ___ Clean the walls, toilet, sink, tub, and shower unit.
- ___ Scrub the floors in both laundry room and bathroom.
- ___ Clean the washer and dryer.
