

## **Rules for Hangar Use**

1. Fuel airplane outside and don't top tanks so that expansion would produce overspill.
2. No storage of flammable materials other than reasonable amounts of engine oil, etc.
3. No unattended open flame and only then with adequate safety procedures including fire extinguisher nearby.
4. Use electricity judiciously so that it will continue to be included in rent.
5. No painting (other than small amounts) without specific permission of management.
6. Keep all trash hauled away.
7. Promptly clean up any spilled oil, etc.
8. No construction or modifications of hangar structure without permission of management.
9. Park automobiles in designated areas.
